elegant

It's a delight to possess something that's naturally elegant. In this case it's the home that'll make space for memorable moments. The more lavish the living space, the more wonderful the memories. You see it's the ambience that brings peace to the soul. It's the good vibrations that surround us, which make our day-to-day journey more cherished. It's the natural beauty of a home that bonds the entire family together. At SriSanthi Grandeur, our abodes come inbuilt with luxury. So, you can live a pleasant, peaceful life. Welcome to Grandeur.

convenient

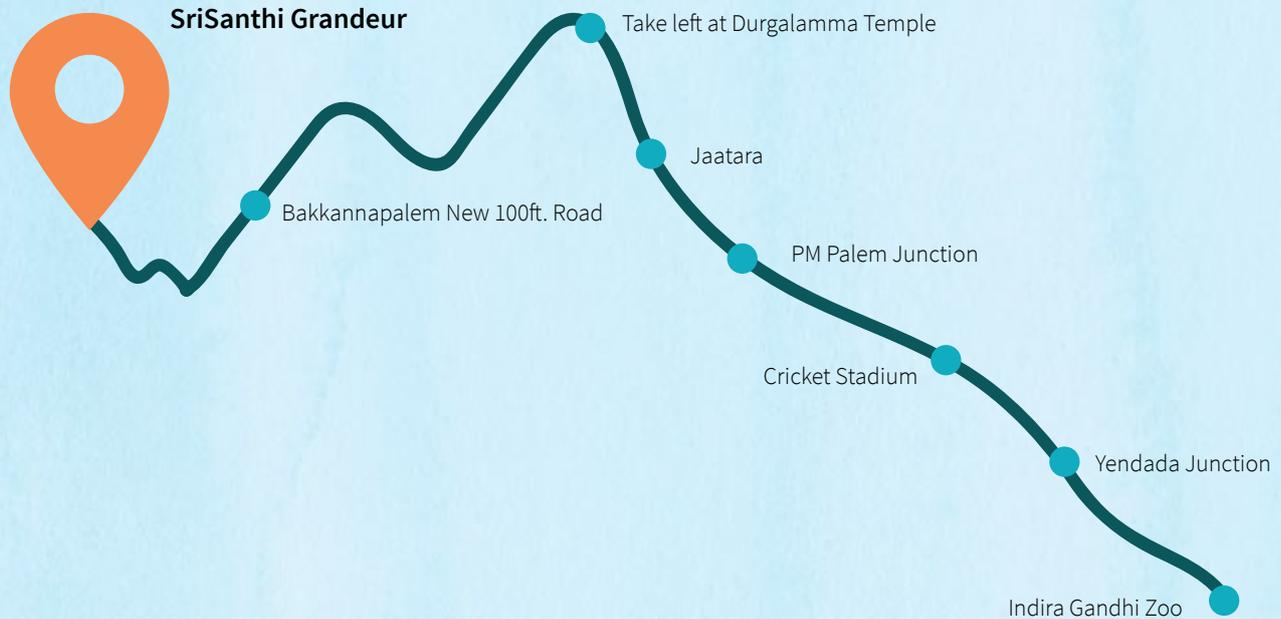

Without connectivity, grandeur is pointless. A home becomes truly luxurious when it's well-connected with the world outside. A world that matters. A world where our friends, relatives and work space exists. It's only then we're close to happiness. SriSanthi Grandeur's superb connectivity makes it ultra-luxurious. Being just 0.5 Kms away from NH-16 and in close proximity to leading IT parks, educational institutions, corporate offices, shopping malls, etc. The project connects your world, like no other.

In 1981, out of a desire to do something different, a young Mr. B. Srihari Rao established a construction company named SriSanthi. We began with laying tracks and replacing older ones. Apart from that, we also undertook telecommunication projects for companies like BSNL, VSNL, Tata etc. We had everything: big clients, big projects and big money. But Mr. Rao wanted to do something different again. So in 2006, under his captaincy, we debuted into real estate development with the 'different' idea of moving people out of the city, where people can live in a serene environment and still be close to the city. Our idea clicked, people loved it and we haven't looked back since. Years have passed and we are still in love with construction. Our portfolio grew stronger ever since. Today, we have diversified into gated communities, apartments, resorts and exports.
